## EDUCATION

**BS Information Systems and Master of Information Systems Management**                           April 2021

*Brigham Young University - Marriott School of Business*                                                                    *Provo, UT*

- Undergraduate GPA 3.7
- Minor in Computer Science
- Member - Association for Information Systems
- 150% tuition presidential academic scholarship, 50% tuition graduate academic scholarship

## EXPERIENCE

**Business Intelligence Intern**                                                                                    May - August 2020

*The Church of Jesus Christ of Latter-day Saints*                                                                       *Riverton, UT*

- Researched, tested, and then trained employees on new data analytics and data engineering software features
- Built custom database version control and testing processes using a variety of cloud platforms and technologies
- Wrote extensive documentation for the new database management tools, then gave trainings and guidance as employees implemented the tools and processes on production servers

**Teacher's Assistant – Web Programming, Organizational Behavior**                             August 2019 - Present

*Brigham Young University – Marriott School of Business*                                                                 *Provo, UT*

- Evaluated curriculum choices and grading standards, provided feedback, and implemented changes
- Reinforced class content and mentored students through frequent meetings with teams and individuals
- Prepared and delivered exam review sessions and taught several class sessions covering new material

**Software Asset Management Intern**                                                                                 May - July 2019

*United Launch Alliance*                                                                                                          *Centennial, CO*

- Developed a process for identifying and documenting software needs with minimal impact on employee time and trained a team of contractors to continue carrying out the process independently
- Analyzed documentation and collected data from employees and software vendors to produce detailed reports in preparation for significant changes to IT infrastructure
- Interviewed employees to identify software requirements patterns, then created structured guidelines to drive more efficient and organized distribution of mission-critical software and licenses

## SIDE PROJECT

- While volunteering full-time on a two-year mission trip in Texas, took over a project to build a console application automating routing and scheduling for transferring volunteers from city to city
- Restructured the scope of the project to eliminate unnecessary features and meet key requirements
- Worked 10 extra hours per week with a teammate to complete the project within a tight 5 week deadline
- The software completed what had been a five-day, four-person process in seconds using an optimized algorithm

## SKILLS AND SERVICE

- Languages and frameworks: C/C++, Java, Python/Django, Flutter/Dart, ASP.NET MVC, HTML/CSS, JavaScript
- Data tools and software: SQL, Power BI, Tableau, Excel, SQL Server, MySQL, PostgreSQL, Snowflake
- Cloud services: Azure DevOps Pipelines, AWS (Lambda, RDS, S3, etc.)
- Volunteer Reading Tutor at Westfield Elementary in Alpine, UT
- Volunteer Tutor and Tutoring Program Director at Brigham Young University
- Eagle Scout
